Abstract: This document provides the instructions for preparing papers for Synergetic Development through Smart Technologies & Digital Transformation-2025(SDSTD2025). Use this document as a template if you are using Microsoft *Word*. Otherwise, use this document as an instruction set. Paper titles should be written in uppercase and lowercase letters, not all uppercase. Full names of authors are required in the author field. The Abstract is one-paragraph short paper. Define all symbols used in the abstract. Do not cite references in the abstract. The Abstract consists of no more than 450 words.

Keywords: xxx; xxxxx; xxxxx (no more than 4 terms)

1. Introduction

The first section of the paper is usually an introduction section, in which the background, the topic and aims are described. The main results and principal conclusions should be highlighted in this section.

2. Styles and Formats

Please use the styles and formats defined in this manuscript for titles, texts, figures and table. Specific examples are as follows.

2.1. Subsection

2.1.1. Sub subsection

2.2. Figures and Tables

Figures, schemes, and charts, along with their captions, should be placed in the text where they are first mentioned and numbered consecutively with Arabic numbers. In addition, the figure caption should be placed below the picture.

Figure 1. If there are multiple panels, please give a detailed description: (a) Description of what is contained in the first panel; (b) Description of what is contained in the second panel.

A caption on a single line should be centered. Reproduced with permission.[Ref.] Copyright Year, Publisher. ((Permission statement required for all figures reproduced or adapted from previously published articles/sources. CC-BY content can be used without asking permission, but the source must be attributed: Reproduced under terms of the CC-BY license.[ref] Copyright Year, The Authors, published by [Publisher]. However, permission must be obtained for reproduction of content published under CC-BY-NC/ND/SA license; delete if not applicable.))

Table 1. Tables should be placed in the main text near to the first time they are cited.

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data ^a

^a Tables may have a footer.

2.3 Formatting of Mathematical Components

The authors are encouraged to use either the Microsoft Equation Editor or the *MathType* add-on (<http://www.mathtype.com>) for equations. This is an example of an equation:

$$Ax = b \tag{1}$$

3. Conclusion

Conclusion is not merely a summary of your points or a re-statement of your research problem but a synthesis of key points, they provide clarity and insight into the topic.

Acknowledgments: Generally the last paragraph of the paper is the place to acknowledge people, organizations, and financing (you may state grant numbers and sponsors here).

Conflicts of Interest: Declare conflicts of interest or state “The authors declare no conflict of interest.” Authors must identify and declare any personal circumstances or interest that may be perceived as inappropriately influencing the representation or interpretation of reported research results. Any role of the funders in the design of the study; in the collection, analyses or interpretation of data; in the writing of the manuscript, or in the decision to publish the results must be declared in this section. If there is no role, please state “The funders had no role in the design of the study; in the collection, analyses, or interpretation of data; in the writing of the manuscript, or in the decision to publish the results”.

Supplementary Materials/ Appendix A

The appendix is an optional section that can contain details and data supplemental to the main text. All appendix sections must be cited in the main text.

References

References must be numbered in order of appearance in the text (including citations in tables and legends) and listed individually at the end of the manuscript. We recommend preparing the references with a bibliography software package, such as EndNote, Reference Manager or Zotero to avoid typing mistakes and duplicated references. Include the digital object identifier (DOI) for all references where available.

Citations and References in Supplementary files are permitted provided that they also appear in the reference list here.

In the text, reference numbers should be placed in square brackets [], and placed before the punctuation; for example [1], [1–3] or [1,3]. For embedded citations in the text with pagination, use both parentheses and brackets to indicate the reference number and page numbers; for example [5] (p. 10), or [6] (pp. 101–105).
